Welcome

Welcome to the world of the 21st century learning opportunities, where children learn through vicarious experiences, enriched curriculum and hands-on, real-life situations. The Bear Boulevard School opened its doors August 15, 2001 and is specially designed to meet the needs of four-year olds. One special feature of our schools is that we also provide childcare for employee's children ages 6 weeks - 4 years old. Continuing its reputation as a pacesetter in education, SBISD leads the nation in providing early intervention for all children. We welcome you on our journey toward life-long learning.
