### Why should your child attend Spring Forest Middle School?

Spring Forest Middle School is one of the most diverse campuses in SBISD. Whenever you visit our campus, you should expect to be greeted with warm friendly smiles from our front office staff, and this energy radiates throughout our campus.

Our teachers are dedicated to the success of every student, and they believe that children should be given many opportunities to be in charge of their own learning. In every classroom you will see creative thinkers, collaborators, and students who are excited about learning!

### What is our educational approach?

We have adopted 21st Century learning skills to ensure our students will be successful learners in middle school and will leave us ready for the next level. We have a campus culture that believes in celebrating everyone's differences and appreciating all of the talents that each and every student possesses. We not only focus on the academic successes of our students, but we value social and emotional development as well.

### What happens after Spring Forest Middle School?

Spring Forest Middle School feeds into Stratford High School. We are proud that SFMS students have gone on to be Stratford High valedictorian for the past 15 years.
